

Affiliate Program for Healthcare Professionals

Thank you for your interest in the MyFoodMyHealth affiliate program. MyFoodMyHealth makes it easy for healthcare professionals to provide comprehensive and customized meal planning tools for their clients.

Benefits of MyFoodMyHealth for Health Care Professionals

- Save time while adding a valuable service to your practice
- Help your clients easily comply with their dietary needs
- Add a new opportunity to generate revenue from your practice

How MyFoodMyHealth Works

MyFoodMyHealth offers a flexible affiliate program to suit the needs of individual healthcare providers and their clients.

Standard Professional Affiliate –

Your client sets up and self-manages the subscription

Your client self-manages their MyFoodMyHealth subscription. When they sign up they use your unique affiliate code to receive a 15% discount off their MyFoodMyHealth subscription. As a “thank you” you receive a 15% referral for the subscription.

How does the standard affiliate work?

- MyFoodMyHealth provides you a unique promotional code.
- Your client uses the promotional code to purchase their own discounted subscription using their own email address and credit card information.
- Your client self-manages the subscription throughout the process.

How do your clients login to MyFoodMyHealth with a standard subscription?

- Your clients simply go to www.myfoodmyhealth.com and login using their own email address and password.
- Once logged in, they can use the complete meal planner and all the other tools available to MyFoodMyHealth subscribers.

Managed Professional Affiliate – You set up and manage subscriptions for your clients

If you would like more control of how your clients use MyFoodMyHealth and would like to service the entire process, you can purchase managed subscriptions for your clients for a 30% discount off standard rates published on www.myfoodmyhealth.com. You can then bill your clients as you deem appropriate for the service of buying, setting up and managing the MyFoodMyHealth meal planner for them.

How do you set up and distribute subscriptions to your clients if you are a managed professional affiliate?

- Contact Caroline Nation to purchase your subs: carolinen@myfoodmyhealth.com
- You will be assigned a unique professional code.
- Enter this professional code and your credit card information.
- Set up an account with **your client's unique email address** and assign them a password (this can be unique or you can use the same password for everyone).

IMPORTANT NOTE: Each client **must have a unique email address** otherwise their meal plans will NOT be accurate or customized for their specific conditions or allergies. However, the password you assign to your client can be unique or you can use the same standard password for all the clients in your practice.

How do your clients login if you have provided them the subscription to MyFoodMyHealth?

- To use and access their meal planner, your clients login to MyFoodMyHealth using their email address and the password you have provided.
- Once signed in, they can use the full meal planner and all the other tools available to MyFoodMyHealth subscribers.
